BANYAN® TECHNOLOGY

LIVE Connect®

Freight Execution Software for Growing Shippers and 3PLs

Truckload (TL) • Less-than-Truckload (LTL) • Local Carrier • Parcel

Banyan Technology, the leading provider of over-the-road (OTR) shipping software, delivers enterprise-level, end-to-end freight execution solutions. Our patented LIVE Connect® platform serves as your primary **transportation management system (TMS)** or **direct API connectivity** that supports your existing systems.

Banyan's solution provides a comprehensive suite of AI and BI tools that help automate manual shipping processes and identify cost-saving opportunities through multi-mode rate comparison.
